A curved slide and ship's wheel stimulate the imagination while an ADA-compliant open landing invites players of all abilities to participate. On the other side, a rock climbing wall and hand-woven rope net ladder challenges kiddos' strength and coordination. A colorful store front area invites them to a game of shopkeeper, complete with wooden groceries, a cash register, and pretend money slot.

This structure meets ASTM F1487 Standards for Public Use Playground Equipment and the 2010 Americans with Disabilities Act.
