

TSA Carson

Ages: 2 to 12

Price: Inquire

We created the Carson play structure with the 2 to 12 age range in mind. It is made up of a 12-foot tower with a gable roof that fits in visually with the surrounding development. To get to the deck (at a height of four feet), children can choose from steps that include an ADA-compliant transfer platform or the more challenging rope net climb that wobbles a bit with each step. For a quick ride back down to the ground, an open slide stands at the ready.

On the ground level, a ship's wheel is perfect for those who prefer to skip the heights and instead choose to captain the vessel to the land of pretend. Watch out for pirates and sea serpents!

This structure meets ASTM F1487 Standards for Public Use Playground Equipment and the 2010 Americans with Disabilities Act.

Specifications on page 2

TSA Carson

Main Tower

4' x 4' x 12' high 2-story Tower (at 4' deck height) open below, with 38" high Fortress railings above and with 5' x 5' single layered T&G Gable roof

- With hand-woven Rope Net Ladder with 2 safety handles;
